Product attributes:

Product description:

Color Rating Booklet used for color rating filter membranes for aviation turbine fuels in accordance with Appendix X1 of ASTM Test Method D2276/IP216.

Features

- Each color standard panel has been certified by Munsell Color to Triple A standards for chroma value and hue.
- Each color standard has a 1"(25mm) window so the the membrane can be viewed for better accuracy in rating.
- Fuel resistant lamination is provided on the back of each color page to prevent wet membrane from soaking the page and altering color.
