Product attributes:

Product description:

This 20 meter long Brass probe contains a Brass Caliper and a Brass Crank. Brass has the advantage of avoiding friction and not being conductive. The probe has a wooden handle. The Ribbon is in black stainless steel and contains a reserve for the graduations and numbers. The attachment of the ballast to the ribbon is quick. The ballast weighs 750 grams and is graduated in brass. This gauge allows for the laterre to be set for the discharge of all static electricity charges.

Delivered with a carrying case.

EEC standard

Dimensions: 20 m x 13 mm
