

Shell Water Detector (SWD) capsules - box of 80 units

**Product codes:**

Reference:
PC201-00012
EAN13: -
UPC: -

Product attributes:**Product description:**

The Shell Water Detector allows rapid detection of water traces in aviation fuels. It consists of a capsule syringe filter with a water-sensitive chemical reagent attached to a 5mL polypropylene syringe. A fuel sample is taken. If after a few moments a colour change is observed, it means the presence of water and a non-compliant fuel.

Context of use:

- Detection of water presence during fuel tests

Specificities :

- Box of 80 capsules (10 tubes of 8 capsules)
